Travel Agent Promotes Athens Cancer 'Cure'

Terminally Ill Patients From U.S. Seek Doctor's Unorthodox Treatment

By Robert Lindsey New York Times Service

FRESNO, California - The telephones seldom stop ringing at the travel agency in this agricultural city in central California. The calls are from people around the country who are dying of cancer and hope to save themselves by taking a trip to Greece.

Each month about 50 of the callers fly to Athens to consult with Dr. Heriton Alivizatos, whose office is located in a modest neighborhood about two miles (3.2 kilometers) from the city center.

Dr. Alivizatos says he has developed a serum that has a 60-percent success rate in arresting most types of cancer, except in very advanced cases. In an interview, he said the serum attacked a protein-like substance that surrounded cancer cells and weakened the body's ability to keep the disease from spreading. He said the contents of the serum are a medical secret. Greek and American health offi-

cials have ridiculed his assertions. Paraskevas Avgerinos, the Greek minister of health and welfare, called him a "merchant charlatan selling hope." However, the Greek courts have acquitted him of fraud, ruling that patients took the treat-

caused no bad side effects.

A statement by the American Cancer Society said the organization "does not have any evidence that the diagnostic procedures and trestment for cancer proposed by Alivizatos results in objective benefits for the treatment of cancer in uman beings." "Lacking such evidence," it said,

"the American Cancer Society would strongly urge individuals affected with cancer not to participate in Dr. Alivizatos's treatment." But dozens of Americans and others still go to Athens each week to see the doctor, and some have asserted that their cancers went

The Christian Democrats countnot thems.

A week ago the Social Demofrom the Greens. Party officials let ocial Democrats.

But last fall, Mr. Genscher took ments last fall, they would not be willing to form a government if they could do so only with the parliamentary support of the Greens. There would be no talks about such a possibility with the Greens. the party said.

Whether the change of strategy is a reaction to voter fears is not clear. Social Democrat leaders The Greens by contrast are a have been saying publicly that annew and, to some West Germans, a cording to their polls, the Greens will not make it into parliament anyway. The strategy therefore is to cut into the voting strength of of demonstrators on specific local the Greens rather than to deal gently with a potential ally.

The change has been criticized by some of Mr. Vogel's supporters. Der Spiegel, West Germany's leading political weekly, charged that ties - one fighting for survival, the the Social Democrats were no longer in the campaign to win hut were playing for second place. Peter Glotz, the party's campaign manager, denied this contention in an interview, saying that the Social Democrats had moved to within three percentage points of the Christian Democrats and thus had

The Social Democrats have revised their strategy also toward the Free Democrats. After ignoring their former partner at the start of the campaign, they now concen-trate much of their fire on him. The reason is that the Free Democrats have started a modest recovery and are now within striking distance of

the minimum 5 percent.

For Mr. Vogel and his party it is essential to keep the Free Demo-crats out of the Bundestag. The reasoning is that if the Christian Democrats have to govern alone they will not be able to stay in power long, whereas if they come to power in a coalition with the Free Democrats they may well be able to keep it for eight or 12 years.

There is a general feeling that conditional on the election out- this is one of the most acrimonious ruled that an enterprise had to and the rapidly rising rate of unemreinstate a dismissed worker only if ployment are cited as major factors the Christian Democrats won and in this mood.

Military in Uruguay Seeks to Slow Return To Democratic Past

By Jackson Diehl

MONTEVIDEO - Ever since Uruguay voted in resounding op-position in its fading armed forces government last November, military authority has been quietly shoving Uruguayan politics away from public view.

Outdoor meetings are no longer permitted, and the signs that marked the beadquarters of political party movements have been ordered removed. The pro-governweek a magazine was shul for interviewing a leading conservative

Uruguay's generals speak much now of maintaining order. In November, the government carried

The result was overwhelming majorities for anti-government

Now, very methodically, the generals are seeking to slow the democratic momentum. "Liberty is what is excessive" in Uruguay, said the and the handling of military gov-interior minister, General Yamandu Trinidad, recently. The crossed political currents de-

fine one of the most delicate of the democratic movements emerging in southern South America. Surrounded by Brazil and Argentina and politically reflective of both, Military leaders have promised to inaugurate a civilian government in early 1985, following an elaborately scheduled process of internal party reorganization, military-

revision and general elections.

The first of those steps, including November's election of dele- leaders borrowed much of their gates to party conventions, has policy and politics from the mili-prompted the leadership of Uru- tary governments in Brazil, Chile guay's traditional parties in resur- and Argentina, where ideologists face nearly intact after a decade of

enforced inactivity. Propelled by widespread discon-tent with failed economie policies with vaguely defined anni-commu-nist and conservative Christian valnection with a \$10,000 debt in the and led by the military's harshest policies that were disrupted by ter- er while offering limited democra-

military in 1973. For many Uruguayans, their plebiscite. democratic past is the great pride of a country often overlooked by 10 percent from two years ago among South America's giants. It and unemployment at nearly 14 has been governed by progressive democratic governments for most of the 20th century. Is introduced

cattle and sheep ranches, Uruguay constructed the most advanced welfare state in Latin America.

Military leaders see the past gov-ernments as ineffectual and elitist and have hoped to install a new model of limited democracy drawn from the rightist military ideologies of the 1970s. Civilian government by this plan would include strict limits on democratic participation, prohibition of leftist parties and an institutionalized role for the armed forces in all future governments.

Few politicians and diplomats here now believe that the military will achieve all it wants, for the new restrictions need the support of political leaders to be imple-

The question of just how Uruguay's next government is elected and structured has become the cruout a major step of its promised cial issue for both the military and democratic opening by permitting the re-emergent political parties the first political party primary elections in 10 years of authoritarigovernment, political leaders say.

Beginning in March, military leaders and committees elected by the newly reactivated political par-ties are scheduled to begin negotiating the changes in Uruguay's constitution sought by the military ernment corruption and human rights violations.

Party leaders, although willing to compromise on such issues as human rights, intend to demand a lifting of the outstanding restrictions on leftist parties.

"There is a lest here of whether Uruguay appears to be teetering the move to democracy is being led between its own democratic traditions and the region's lingering creed of institutional military rule.

There is a lest neit of whichief the move to democracy is being led by the military, or forced by the opposition," said Javier Fernandez, an editor of the opposition magazine, Oninar,

> So far, while the government has dictated the timetable and form of the democratic opening, its decision in give up power has appeared to be anything but voluntary.

Politically unlearned and often inarticulate. Uruguay's military envisioned the transformation of political, economic and cultural life

The turning point came in 1980 to suffer a remarkable defeat in a

Now, with economie activity off percent in a country of only 3 million, there are many who predict that the government could be women's suffrage and the eight-hour workday before many nations in Europe. With the wealth of its planned.

Talks for El Salvador

It seems that at least one part of the American government, centered in the State Departing plan to let the left compete in elections run by can government, centered in the State Department, fears that the bottom may drop out of the current American policy in El Salvador: Either the government's situation there will deteriorate or U.S. congressional support will fall. This is, in our view, a correct, conservative and prudent analysis, given the Salvadoran government's continuing difficulties and the growing unrest in the U.S. Congress. It is the hasis for the consideration now being given to a new American approach to resolving the multiple issues — peace, security, power, justice, regional stability, external influence

To judge by what is known, the State Department is dead set against cutting or condi-tioning the current life-sustaining American aid to El Salvador in order to compel Salvadorans either to do more in buman rights and reforms or to enter negotiations with the left. There is some favor for this approach in Congress, hut none in the Reagan administration. Rather, the department means to try, through an intermediary, to see if negotiations can be started between the two Salvadoran sides.

Explicitly, the effort rejects the guerrillas' proposal for talks in which the left would gain a share of power without having earned it in elections. But the effort also involves, implicit-ly, backing off the support the United States

that government; the left, distrustful and no doubt hoping for more than it could earn in elections, has spurned the offer. Instead, the United States would support "the cooperative development of political processes that are democratic and that provide the security as well as the means for reconciliation." Just what this gobbledygook means only talks could tell.

But that is running ahead of the story. The first requirement is for the administration as a whole to decide whether it wishes to experiment with a new approach. Some important quarters are holding fast to the current policy. They are not frivolous.

There need be no apology for a policy of supporting the Salvadoran government in bat-

the in reforms and in elections.

The question is how the policy is working, and the increasing evidence is that it is not working well enough: the war goes on at great cost and without apparent end, and what is huilt up hy slow and irregular progress in reforms and rights is constantly eroded by violence arising at both ends of the political spectrum. This is the urgent reason to consider a policy that would conceivably isolate the extremes and allow the pursuit of peace.

-THE WASHINGTON POST.

Death and the Court

The U.S. Supreme Court, which is supposed to look after the fair administration of the death penalty, now leads the nation in mismanaging that sentence. Justice Potter Stewart's vivid complaint a decade ago that the penalty was "so freakishly and so wantonly imposed" can now be properly directed to the highest court in the land.

In December, the court allowed the execution of Charles Brooks, a Texas murderer, by lethal injection - despite unanswered arguments that he had been denied the judicial review that federal law requires. Now, in the Thomas Barefoot case, the court calls for special argument on what the courts should do when asked to stay an execution. There is no legal difference between the cases - except that one inmate was executed while the other lives for another day in court.

Both men committed vicious murders, Mr. Brooks killed or helped to kill a used-car salesman; Mr. Barefoot murdered a policeman. Each appealed his death sentence through several courts and was turned down by a federal

district court in Texas. Both were denied a stay of execution but obtained what the law calls a "certificate of probable cause," endorsing an appeal to the Court of Appeals for the Fifth Circuit.

The Supreme Court has said many times that this certificate requires the Court of Appeals to hear the appeal on its merits, but that court refused and sealed its refusal by denying both a stay of execution. In the Brooks case, over three strong dissents, the Supreme Court let the execution proceed. Now, in the Barefoot case, it bas agreed to consider "the appropriate standard for granting or denying a stay of execution" in such circumstances.

For all the similarity in their crimes and legal arguments, Mr. Barefoot's success would not help Mr. Brooks, Even if Mr. Barefoot loses, Mr. Brooks, too, deserved to live until his case was finally heard. As Justice Stewart observed in 1972, "These death sentences are cruel and unusual in the same way that being struck by lightning is cruel and unusual."

Other Opinion

After Bush, a Void

Mr. Bush has learned a little on his European trek. He pointedly declined to use the words "zero option" in the Guildhall [in Lon-don]. He quoted his leader: "There can be no — cilly losers. unveiled no more disastrously misguided "open letters" from the White House. He talked of flexibility and of the clear support of Mrs. Thatcher (which is not necessarily the same thing). But there is now, perhaps, no way that itinerant politicians can win these arguments by words if they emerge from such an ambivalent and chaotic Washington background. Only deeds will do: Only the outcome at Geneva can decide. And in the meantime the void in Western policy — a void opened again by Mr. Bush's lack of specific proposals and by Mr. Andropov's wily lobhing of new notions into the ring - vawns wider and

- The Guardian (London).

An End to 'Sharonism'?

The decline, if not the fall, of Ariel Sharon as an Israeli political superpower seems almost certain. But if Mr. Sharon has been gravely discredited, the question remains: To what extent has "Sharonism" - a clearly defined and readily recognizable Israeli security doctrine — been equally discredited?

The answer could make a very hig difference in Israeli policy — not to mention U.S.-Israeli relations.

As prime minister, Menachem Begin has been much more than nominally Mr. Sharon's boss: What Mr. Sharon did, it has to be assumed, Mr. Begin has supported, for whatever combination of policy and political reasons. But Mr. Sharon has been the professional military strategist — the driving, initiative force to whose judgment Mr. Begin more often than

Mr. Sharon has also been the most outspoken obstructionist of U.S. policy. He was openly contemptuous of both the follow-up Reagan "initiative" to Camp David and the efforts of Philip C. Hahih, the U.S. special envoy, to arrange the withdrawal of Israeli and other foreign forces from Lebanon.

True, Mr. Begin needs, now more than ever, something to show for Lebanon. So a quick agreement on withdrawal is not in the cards. But the weakening, one way or the other, of Mr. Sharon's freedom to run roughshod has to make some difference. For Mr. Sharon's view of the West Bank, just to begin with, has much

less to do with religious history than it has to do with a grand, geopolitical design. It is worth looking at a document in which, a little more than a year ago, Mr. Sharon laid out his view of "Israel's strategic problems in the 1980s." In it, he goes further than anything said by any leading political figures in his readiness to express the concept of preemptive military action to meet potential threats. The Baghdad bombing was only a portent for Arah neighbors engaged in nuclear development. Lebanon was already a gleam in his eye:
"We will prevent any violation of the statu:

He would prevent as well suspicious troop movements, or any "accumulation of forces in the confrontation area" in neighboring countries. Mr. Sharon's central argument was that increased Arab military capabilities make Israel with its occupied territory, no safer than it was behind its pre-1967 borders.

quo ante in Lebanon."

It is difficult to measure the degree to which "Sharonism" was uniquely Mr. Sharon. But "Sbaronism" without the same old Sharon would lose much of its force.

--- Philip Geyelin in The Washington Post.

The Nonaligned Summit

By sending its senior diplomats to some 30 countries, India hopes to give the upcoming summit [of nonaligned nations] a smooth start. This is important, for today the nonaligned ement is so sharply divided on some issues that without an effort to promote accommodation among its sparring members, procedural difficulties may prevent any sort of meaningful deliberations.

The greatest need of the hour, however, is for the movement's members to develop nonalignment into a viable strategy for inde-pendent and honorable living in a dangerously divided world. The national independence of Third World countries depends on this.

1908: Gunrunning Off Macao

SHANGHAI — The Japanese Shipowners Union demands the release of the Japanese gunrunner Tatsu-Maru. It declares that the arrest of the ship by the Chinese Customs offi-cials was illegal, because the cargo of rifles and ammunition had been authorized by the Osaka police and the Kobe Harbor Customs authorities. The shipowners union alleges that the Macao authorities granted permission to import arms intended for the Chinese revolutionaries. Agents of the Japanese government recently approached Russian officials, then Chinese authorities, offering to sell them nearly 100,000 Russian rifles, part of their spoils in the recent war. It is believed the cargo seized off Macao forms part of these arms.

1933: Cuban Revolt Reported

MIAMI — Despite official denial from Havana, the N.Y. Herald Tribune correspondent learned today that a new revolt has broken ont in Cuba. Exiled Cubans here expect word momentarily of the outbreak, which has as its aim the forcible overthrow of the Machado government. Two well-equipped armies, com-manded by two sons of General Mario Menocal, the exiled Cuban leader, are marching on Havana tonight. The revolutionary forces are reported to be augmented by several hundred veterans of the American army who saw service in France during the World War. The revolt follows attempts by opposition groups to capitalize on widespread discontent over President Machado's dictatorial regime.

New Israeli Flexibility Appears Likely

WASHINGTON — The Reagan administra-tion's cautious public reaction to the Israeli inquiry commission's report belies months of anxious anticipation.

ft was originally thought by some in the administration that a harsh report might so disrupt the political climate in Israel that the Begin government would fall and be replaced by a Laborled coalition.

The worst-kept secret in Washington (especially since the qualified endorsement by the Labor Party leader, Shimon Peres, of President Reagan's Mideast peace initiative) is the administration's preference for a Labor government.

However, a more realistic assessment ulti-mately prevailed. It was soon realized that there was little chance that even a blanket condemnation of the Begin government would shake the Likud bloc's popular support. Therefore, senior officials in the administration scaled down their expectations and narrowed their focus to the departure of their bete noire, Defense Minister Ariel Sharon.

With Mr. Sharon out of the way, some argue that the "relentless locomotive" (as one administration policymaker described him) of Israeli policy in Lebanon will be stopped. These offi-cials believe that the real problem in the Leba-non negotiations has not been the question of security arrangements for Israel's northern borders, but rather Mr. Sharon's efforts to use military power to shape his own political objectives

in Lebanon.
Ostensibly, Mr. Sharon has sought full normalization with the Lebanese government, but U.S. officials assert that his nlumate goal is to hring Lebanon in under Israel's sphere of influence. It is for this reason U.S. officials believe that Mr. Sharon has tried to discredit the role of the multinational force, including the American Marine contingent, and to prevent it from ex-

With Mr. Sharon out of the cabinet or at least

By Richard Strauss and Ken Wollack

stripped of his defense portfolio, American officials believe that Foreign Minister Yitzhak Shamir and David Kinche, Israel's negotiator in the Lebanon talks, will play the dominant role on Lebanon. Mr. Shamir and Mr. Kinche, while seeking to win maximum security guarantees for Israel, are viewed in Washington as more sensitive to U.S.-Israel relations and to the need to reach an acceptable political accommodation

with the Gemzyel government. And even on the more intractable West Bank issue, some U.S. officials believe that, notwithstanding Mr. Begin's deeply held convictions, the Israeli prime minister would be able to display more flexibility on the crucial question of "freezing" Israeli settlements. Without Mr. Sharon, said one administration official, "the Israeli position on the West Bank will be tough and hard but not frozen."

Moreover, the departure of Mr. Sharon in the domestic turmoil that Mr. Begin must now deal with, in the words of one State Department offi-cial, "creates a window of opportunity" for U.S. policymakers. This official believes that at some point Mr. Begin must look to repair the battered state of U.S.-Israeli relations. Then the United States can press for its two chief goals — with-drawal of Israeli forces from Lebanon and adop-

tion of the president's peace initiative. However, senior U.S. officials believe that before they can take advantage of the political turmoil in Israel, they must break the linkage be-tween Lebanon and the president's plan.

As originally envisioned by the administra-

tion, Mr. Reagan's Sept. I peace plan was to run parallel to the Lehanese negotiations, which the United States had hoped would produce an agreement on withdrawal of all foreign forces by December of last year.

As the U.S. timetable slipped into the new year, however, Egypt and Saudi Arabia, in particular, demanded a demonstration of U.S. resolve in Lebanon before proceeding to any peace negotiations on the West Bank.

"The Arabs were telling Hussein that if the United States can't achieve an Israeli withdrawal in Lebanon, how can he expect the United States to deliver on the West Bank?" one American official said.

Acquiescing in the principle of linkage, the administration began pressing for a quick Israeli agreement on withdrawal before March I, the date set by King Hussein for his decision on

whether to enter the peace process.

"The administration allowed its most important goal [the Reagan peace plan] to become hostage to Lebanon," lamented one administration official. U.S. officials argue that the prospect of American pressure on the West Bank issue upon completion of the Lebanon talks is a "disincen-

tive for Israel to make major concessions.

As a result, administration officials, resigned to the fact that a withdrawal agreement in Lebanon will not be reached before March I, are now seeking ways to return to their original "two-track" policy. They have to restrict Figure 1. track" policy. They hope to persuade King Hussein that Israeli troops will eventually withdraw from Lebanon and that now, following the release of the massacre inquiry report, is the ideal time for the king to announce his readiness to

a) time for the king to announce his readiness to join peace negotiations.

"This would put Begin on the spot," one U.S. official said. And if Mr. Begin were to seek vindication of his Lebanon policies by precipitating new national elections, King Hussein — as a State Department official said — "could add 'peace with Jordan' as another campaign issue."

and insecure.

ervihing else denies us.

Japanese naval vessels would provide protection to U.S. ships coming to the assistance of a beleaguered Japan, and other remarks on matters of boundaries, especially for an islandthe nation's defense.

The constitution clearly bans the possession of arms. The military establishment today enjoys only a weak legitimacy by virtue of a supreme court ruling that says, effectively, that the arms ban does not deny Ja-pan the right to defend itself. Here is the most basic inconsistency, and it is one that Mr. Nakasone would like to remove. But the national consensus needed for the constitutional revision be seeks is still far off.

Meanwhile, most Japanese have come to terms with their defense forces, if only as a necessary appurtenance to sovereignty. They approve of the defense forces but oppose making them strong enough to constitute an effective deterrent, because they do not believe anyone will ever attack Japan. This is the second inconsistency.

reach the Pacific, his statement that allow them the freedom of movement curity and the responsibilities that go

nation, · Hence the expressions of outrage that anyone, including the prime minister, should suggest that the blocking of the Japan Sea straits might be necessary for a nation un-der attack, and the refusal to accept the idea of Japanese protection for American ships coming to aid Japan under terms of the U.S.-Japan security treaty, which stipulates that both countries "have the inherent right of individual or collective self-defense as affirmed in the charter of the

United Nations." While approving of the free ride Japan has gotten from the American security umbrella, many Japanese find it difficult to accept the fact that their security is based on a collective concept where there is both giving and taking. It has long been an anomaly to outsiders how in a nation As the recent Diet debate showed, so economically dependent on the rest of the world, so many can be infleet at Vladivostok must pass to tence of the defense forces will not different to the need for collective se-

with it. The give is minimal, the take

maximal. While Mr. Nakasone has made a good start in stirring the public consciousness to Japan's international role, there is still public sympathy for arguments that giving Japanese mili-tary technology to the United States helps escalate the arms race, or that Japan, by defending its sea-lanes or blocking its straits, makes itself a pawn of American global strategy and risks becoming embroiled in a U.S.-Soviet confrontation.

Yet, the same people who shy away from the obligations of a collective security arrangement expect the United States to abide by its treaty obligation to defend Japan. They contend Japan needs only a minimum defense force to hold off an aggressor until U.S. forces come to the rescue. Indeed, this has been a fundamental assumption of Japanese defense planning.
Despite Mr. Nakasone's hawkish

statements and sometimes unfortunate choice of words --- such as likening Japan to "an unsinkable aircraft carrier" in an interview with and done nothing to indicate he in-tends to go beyond the ceilings of the military huildup approved in 1980. Assuming the buildup is completed by 1985 as scheduled - and there it is unclear whether there will be enough funding to meet this goal --Japan's military capability will remain limited, serving primarily as a complement to the U.S. military presence in Asia.

The prime minister enhances his hawkish image by his straightforward talk. In the game of Japanese parlia-. mentary debate where the art of evasion has been honed to a high degree, Mr. Nakasone refuses to play hy the rules. It has been entertaining to lisien to some of the recent give-andtake between him and his questioners. More than once his directness has left them at a loss. This outspokenness and a willing-

ness to act have earned Mr. Nakasone both praise as a strong leader and criticism that he is moving too

Tokyo-London Gallery Exchange

By Max Wykes-Joyce

ONDON - A particularly interesting cultural exchange is taking place this month and next between a gallery in London and one in Tokyo. Each has chosen work from among the specialties of the other, with a view to introduc-

ing novelty to their parent city.
Juda Rowan's choice from the Tokyo Gallery is of paintings by Minoru Kawabata; paintings, drawings and watercolors by Lee U-Fan, and wood sculpture, metal reliefs and related works on paper by Yoshishige Saito.

Kawabata, born in Tokyo in 1911 and educated there at the Academy of Fine Art, continued his studies in France and Italy. Although since 1958 he has lived and worked in New York, teaching at the New School of Social Research and showing regularly at the Betty Parsons Gallery, he represented Ja-pan in the Venice Biennale of 1962.

A superficial glance at his large, subtly colored abstractions painted in acrylic on cotton duck would relate them all 100 closely to the New York school of Abstract Expressionism. In fact they stem from a far older tradition, that of the Jap-anese screen painters of the 17th

in this case the borderlines between

vas, watercolor on paper, and pen cative distant presence."

and pencil drawings — sometimes

The selection from Ru like an elementary shorthand, at others like the printout on an electoencephalograph - all put one in mind of the mise-en-page for which the Great Brushes, the master calligraphers of the past, were rightly

Saito, now in his 80th year, is Tokyo born and educated, though world-traveled. To say that his complex constructions of painted wood are also in the calligraphic tradition may seem farfetched, yet even the most enrsory inspection of his sculptures proves the truth of this observation. The characters of written Japanese "draw" ideas in two-dimensional space; sculpture of this kind defines ideas in a similar way, but in three dimensions.

So instead of trying, as one is tempted to do, to relate Saito to Meadmore or Rickey or David Smith it is more profitable to think in terms of an arrangement of the characters that designates the great gables and gates of a Japanese palace or a shrine, characters with their origins in the shapes and angles of the buildings themselves.

inappropriate to the East. His ence, without hands, feet, head, or brush strokes of pigment on can-sexual parts, an alone, uncommuni-

The selection from Russian Constructivism, which follows Kenny at the Tokyo Gallery, has long been a specialty of the Juda Rowan Gallery in London, The Tokyo show consists of paintings, reliefs, prints and sculptures by, among others, Ilya Chashnik (1902-1929), a pupil of Malevich; Vasily Ermilov (1884-1968); the Muscovite Ivan Kluin (1878-1942); and El latter's folio of 10 colored lithographs made to parallel a now-fortory Over the Sun," The whole collaboration between the English and Japanese galleries is sealed by an excellent joint catalog in English and Japanese.

Another interchange between the two countries is to be seen at the Patoo Gallery, in a first London show - "Travelog: Mixed Media Works" - by Terry Dowl-Media Works'—by terry con-ing. Born in 1946 he studied graph-ic design at Manchester and illus-tration and ceramics at the Royal tration and ceramics at the Royal with Chinese figures, made ocarly traveling scholarship. The current for older tradition, that or the segretary states exceen painters of the 17th century. Looking at Kawabata's pocaries, the Tokyo Gallery is to exhibit, first the sculpures and cover echoes of such masters as Socover echoes of such masters as So in 1936), Lee U-Fan, Tokyo-trained in philosophy as well as art, also works in an earlier tradition, in this case the borderlines between stract, have a figurative basis, he making 20th-century ritual masks in metal-painted papier mâché, Dowling is bringing to his Europe-an-acquired skills an Oriental openness, sensitivity, and sense of in metal-painted papier maché, an-acquired skills an Oriental openness, sensitivity, and sense of the interrelationship of things that augurs well for his future creations.

Sniffing Out the Bargains

By Souren Melikian International Herald Tribune

DARIS - Strange things are happening at Drouot these days. Professionals give conflicting accounts of the current state of affairs. While one will argue that everything is selling like hot cakes, cerity that buyers have never been so tightfisted.

Attending sales makes it possible to confirm those conflicting reports. One week, objets d'art do go through the roof in a specialist sale where oo one expected this, given the scarcity of desirable items. The next week, prices go up and down in the course of a typical Drouot sale, with a bit of everything in it; still more disconcerting, the better pieces will sell poorly while junk frequently doubles or triples the most optimistic estimates. The seemingly errade pattern actually has logic to it, but this has nothing to do with the art market: It reflects French social attitudes to the deepening crisis that the country is

The month's success story is that of the snuff-bottle sale conducted by Viviane Jutheau. On Feb. 2, 209 small Chinese flasks used for carrying snuff, were sold for a net 497,000 francs (about \$72,000; prices do not include the three-tier fee, ranging from about 11 to 17 percent, paid by the buyer on top of the hammer price). Only one lot was bought in — a 900-franc bot-tle. None of the specialists who had ed the objects before the sale could have forecast such a sweeping triumph. Most were run-of-the-mill 19th-century snuff bottles of which tens of thousands were produced at a time when nearly every Chinese from the urban middle-

class enjoyed his little daily sniff. The asset of the sale, if any, was that its hard core consisted of a new £1 coins. The coin, struck hy collection formed by a French diplomat posted in China before World War 1. Therefore, very few tion on April 21. pieces had been seen in the market, More subtly, its provenance gave the grouping that aesthetic consist-ency so typical of any one-man se-lection. Despite the diversity in texture (materials ranged from porcelain to enameled glass, coral and Lissitzky (1890-1941) including the ivory) and decoration (which could be purely abstract or figurative), they somehow went together withgotten opera, Krutschonjch's "Vic- ont clashing. Buyers react favorably to that sort of balance, which has a soothing, reassuring effect.
It was obvious from the begin

ning that the auction was going to be a hit. The second lot in the sale a porcelain miniature version of Chinese vase with blue-and-white floral decoration, was knocked down at 450 francs, 50 percent over the high estimate. Seconds later, five times its high estimate, reachbook available on the subject in French, illustrated largely with pieces from ber collection, and she never misses a sale, whether in New York or Loodon. She readily admits that the estimates in her catalog were about 30 to 50 percent below the London or New York price level! The reason, she says, is that there are fewer collectors in France, where prices are not those of the international art market. As it turned ont, this time they were often 30 to 50 percent higher.

Regarding those few pieces that belooged in the top range, Jutheau's personal contacts with the small, tightly knit international collecting community undoubtedly helped. Some foreigners had bothered to make the trip. The snuff

bottle that Jutheau says she would by Paul Renand. On Feb. 9. the most have enjoyed for herself - it price pattern zigzagged wildly. had a wave pattern molded in low relief in the monochrome "imperial yellow" glass — soared to a phenomenal 41,000 francs.

But the ordinary pieces, the erything is selling like hol cakes, overwhelming majority, sold within another complains with equal sin-the 800-to -4,000-franc bracket and

THE ART MARKET

auctioneer noted at least 30 newcomers among the buyers. Many seemed to be unfamiliar with the field. This situation would not have arisen two years ago. It reflects the rising demand in the French lower middle class, with little or no previous experience in art buying, for pieces under 5,000-6,000 francs. Their preference goes to instantly identifiable collectibles. These should have hright colors, be made of precious or seemingly precious materials, and not give rise to his-torical art headaches. Snuff bottles are the ideal article. They are small enough to be carried in the pocket, they fit into series like postage stamps, and when of a modest order, such as mass-produced 19thcentury items, they can be paid for in cash. Paying by check at auctioo is now mandatory for French na-

The contrast could not have been greater with the sale of general interest ranging from silver to furniture conducted a week later

tionals for more than 10,000

An Expensive Pound

The Associated Press LONDON - London restaurant wner Michael Bloom paid £2,200 (about \$3,380) at a charity auctioo Wednesday for the first of Britain's al Mint, goes into general circula-

Objects of little aesthetic interes were selling marvelously well. A gold watch made about a quarter of a century ago by Lip - hardly a glamorous mark — was knocked down at 1,400 francs. It was followed by another gold watch with a finely chased rococo design datable to 1870-80, which was reasonable at 1,300 francs. Then came a third, superb, gold watch, illustrating 18th-century craftsmanship on a high level, which could be considered downright cheap at 4,800 francs. The reason for the apparent paradox is simple. Flea market or private buyers from the lower middle class, scared by the continuing inflation, will go after a Lip watch which immediately rings a bell, while they are hardly aware that a sophisticated mid-18th-century watch is worth seven or eight times

Similar contrasts could be observed throughout Paul Renaud's sale. An attractive ent-glass bowl carrying the mark of Daum at Nancy went for a mere 350 francs. It was not rare enough for highhave been attending anyway, but was far too modern in taste to appeal to the traditional junk dealer. A cylindrical vase made at Sevres around 1890, on the other hand, made three times that price: The deep blue color and neo-Louis XV ornamental design incongruously surrounding a naturalistic flower, looked familiar enough to those attending. On the other hand, a good piece of African art, an ax shaped lke a standing figure, with the blade coming out of the back of the head, was a giveaway at 1,250

For those who do not dream of emulating the Metropolitan Museum of Art and merely want some nice pieces to live with, Drouot is the place to go, now more than at

painting and calligraphy, a distinc-tion made by Westerners but quite pared down to an anonymous pres-Video Vision in Paris

By Michael Gibson

PARIS —At the Pompidon Conter, as usual the seat of a number of activities and events which are variously interesting, the great pit at the center of the main hall, called the Forum, is devoted (to April 10) to the presentation of a very large piece by the video artist Nam June Paik.

It assembles more than 300 tele-vision sets which should be viewed from the vantage point of the gal-lery at the rear of the hall. It also helps if you look at it with halfopen eyes, because in this way you only see the tricolor shimmer of all the sets forming a sort of carpet of light which is intended to be red, white and blue

There are recognizable sequences being projected on the sets, some merely geometric, mostly at a frantic pace. At the outset Nam June Park had sequences from Casabianca fluttering on briefly in the "white" section, but struck me as actually interesting for the eye. Most work in this field a turtle sleeping. One could imag-ine a whole building covered verti-

The French government is about to create a new 55-becture park on the northeast edge of the city, on the site of what used to be the slaughterhouse of La Villette. The park will surround a Museum of Science and Technology, a twohectare exhibition hangar and the National Music Conservatory. An international competition was an-nounced and architects and landscape designers were invited to submit projects for the park proper

been approved. The show being currently pre-sented by the Centre de Creation Industrielle ("La Ville en Ses Jardins," to April 6) had been intended as a showing of the winning project Instead, the nine most inferesting participants have been in-

SATURDAY-SUNDAY, FEBRUARY 12-13, 1983

ECONOMIC SCENE

By H. ERICH HEINEMANN

Government Role in Economy: Bigger, Despite Reagan's Goals

NEW YORK — Buried deep in the Reagan administration's pro-posed budget for the fiscal year 1984 are signs of a profound

change in policy — a change that may say, as much about the national political mood as it does about shifting presidential priorities.

As Michael E. Levy, director of economic policy research at The Conference Board, said recently, not only is the lone in Congress more partisin but the focus on Capital Hill is on counteracting sluggish growth and record post-World War II unemployment while getting a firmer grip on rising defense outlays."

- The best indicator of the evolution in emphasis is a comparison of the administration's three projections for real government spending in 1986. That is the final year for which President Ronald Reagan presented a fiscal plan at the time he took office.

On March 10, 1981, the administration indicated that real federal out-isys, measured in constant 1972 dollars, should total \$305.6 billion in the

The administration

rediscovering the

appears to be

fiscal year ending Sept. 30, 1986, up \$1.6 percent from 1980. Last year the budget figure for real spending in fiscal 1986 was \$347.9 billion, up-9.5 percent from 1980, and in the budget published last month the number was \$377.3 billion, up 19.1

great gravitational The largest component of the increase is the government's bill for interest payments. This reflects the power of the political combined effect of bigger deficits center in the and higher interest rates than expected. But in second place, not far hehind, is a jump of \$27 billion in

real terms in social programs.

The Defense Department has actually been scaled back slightly from the plans the president laid out two years ago. The White House Office of Management and Budget is now estimating real military outlays for fiscal 1986 at \$116.1 billion, down a bit from the \$118.9 billion set forth in the administration's initial budget in 1981.

Conservative Rhetoric

The rhetoric accompanying the administration's budget proposal this winter was as conservative as ever. Lower taxes, smaller government and a much stronger military structure remain Mr. Reagan's major personal goals. However, in a private conversation recently, an administration official spoke wearily of "recognizing political realities — there're a lot of these things where we have gone as far as we can go."

The administration seems to be rediscovering the great gravitational power of the political center in the American electorate - a power that always works against radical changes in policy.

This is evident in the administration's new estimates of government

spending as a proportion of the economy—a measure that many economists regard as critical to understanding the true burden of taxation. When the government spends real dollars, for whatever purpose, some-

one, sometime has to pay a real tax.

When Mr. Reagan took office, one of his main goals was a sharp cut in federal outlays as a percentage of the gress national product, to 19 percent by 1986 from the average of more than 22 percent under President Jimmy Carter. In reality, federal spending this year is likely to be close to . 26 percent of the GNP, and the projection for 1986 is now 24.1 percent rather than 19 percent. In current dollars, madjusted for inflation, the difference is \$210 billion.

Weaker Economy

In part, this overron reflects a much weaker economy in the last two years than was expected. The president's new budget estimates that the GNP in 1986 will average \$4.144 million - which would be almost \$670 billion below the level that was the basis of Mr. Reagan's original goal.

But there is more to this part of the story than a weak economy. The administration's long-range economic outlook shows total business activity rising rapidly toward its potential - the so-called full-employment level of GNP — during the next five years. By 1986 the gap between actual and potential GNP is projected to be smaller than it was, say, in 1981, but government spending as a percentage of the GNP is higher.

The fact is that the projected growth rate of federal outlays for domes-The fact is that the projected growth rate of federal outlays for domestic transfer payments has been creeping upward year by year. In 1981 the real rate of expansion through 1986 was placed at 1.5 percent. Last year it was 1.9 percent and this year it is 2.8 percent. When coupled with Mr. Reagan's military buildup, the result has been a significant rise, not a decline, in the government's role in the economy.

Meanwhile, Congress is having its own problems in controlling spending. Last June it passed a resolution that, in effect, set a legal limit on outlays for the current fiscal year of \$770 billion. Both the administration countries; agreed Friday that the administration of the Congressional Budget Office, however, expect, actual outlays to

ordays for the current fiscal year of \$770 billion. Both the administration countries; agreed Friday that the and the Congressional Budget Office, however, expect actual outlays to the \$30 billion to \$35 billion to \$35 billion tagher than that.

The New York Times

Tracenting the major industriance countries; agreed Friday that the drift toward protectionism can be een criticized for not stimulating the checked only if the world economy to belp lift the world recovers and that the time has

U.S. Studios Fight Back Over Pay TV

By Sandra Salmans

New York Times Service NEW YORK - It has always been rough to break into the movies, and no welcome mat was put out in the early 1970s when Time Inc. started a subsidiary to show films

on cable television. But today, Home Box Office, the largest pay television network and a moneymaker for Time, is firmly entreached in Hollywood - and the movie companies are fighting

"There's a war going on," said Allan Ra-phael, an analyst with Arnhold & S. Bleichroeder, a brokerage firm. "The motion picture companies a decade ago let HBO get a monopolistic position, and they've med it

The battle was joined last month, when three major studies, MCA, Paramount Pic-tures and Warner Brothers, joined two companies with interests in cable television. Viscom International and American Express, in a partnership to operate Showtime and The Movie Channel, the two largest cable services after HBO.

Viacom International, a cable operator, owned Showlime, American Express has been involved in The Movie Channel through its tie with Warner Communications in Warner-Amex Satellite Entertainment.

The studios hope that the new competition will force HBO to pay more for their movies. Thomas Wertheimer, a vice president of MCA' Inc. which owns Universal, said:

But beyond that, the studios are trying to insure that Hollywood, not HBO and its friends, controls the movie business. With HBO financing production and going into moviemaking, the studios have gone into cable as a protective measure.

Paul Kagan, a leading cable analyst, said: "If your biggest customer is becoming bigger than you, you have to go into his business." The stakes are high. The distribution of

movies on cable television is already a multimillion-dollar business, and many movies that barely break even at the box office get their profit from sales to network and pay television. By 1985, according to some esti-mates, revenues from pay television could ex-ceed box-office gross, which reached \$3.4 billion last year.

tribution of movies by cable is dominated by HBO, which, with 12 million subscribers, has a market share about three times the size of the next ranking service. Pay television has thus become a buyer's market, and the suppliers, the movie companies, complain that

The studios' major concern is that the dis-

they have been treated shabbily.

Mel Harris, president of Paramount's video division, said: "If HBO is the only game in town, suppliers have to grin and bear what is offered. It's important for the supplier to have more than one place to sell his wares." Industry experts said HBO has been locking up the programming required by its vora-cious 24-hour schedule. It has financed the

"We've been less than satisfied with the prices paid by HBO."

production costs of independent producers in return for the exclusive right to show movies such as "On Golden Pond" and "Sophie's Choice." In 1981, it agreed to bankroll a number of the movies produced by Columbia Pictures and Orion, in exchange for the cable

> In December, HBO announced a joint ven-ture with Columbia Pictures and CBS Inc. to make movies. The new venture, code-named Nova. has been hailed as the eighth major studio, joining Paramount, Warner, Univer-sal, Columbia, Metro-Goldwyn-Mayer, 20th Century-Fox and Walt Disney Productions. Nova will reportedly make 12 to 15 movies in

According to Mr. Kagan, the economics of moviemaking made it inevitable that HBO would become a producer. Last year, be esti-mated, HBO paid \$250 million in movie rental fees. Using the common Hollywood prac-tice of obtaining outside financing for film-making, he said, the cable service could have leveraged that sum into \$1 billion worth of movies — a figure that would propel it ahead of the established studios.

Mr. Harris said: "The manner in which

HBO has created exclusive product, and its professed intent to do more, indicates that they're trying to create less and less need for other suppliers. Creating competition here is an industry issue."

HBO declined to respond to questions about Nova or Showtime-Movie Channel. But in a statement following the announce-(Continued on Page 9, Col. 5)

Producer Prices In U.S. Plunged 1% for January

By Caroline Atkinson Washington Post Service

WASHINGTON - Wholesale prices fell by a full percentage point in January, the largest onemonth decline since this inflation measure was first calculated in 1947, the Labor Department re-

ported Friday. Sharp declines in energy prices led the way, with costs of gasoline, fuer oil and natural gas all down from December, the report said. Food prices also fell, although at a more moderate rate.

President Ronald Reagan's spokesman. Larry M. Speakes, hailed the report as "striking confirmation of the progress that has been made in reducing the underly-ing rate of inflation. This is good news and indicates that the administration and the Federal Reserve, working on the same wavelength. achieved these results."

In recent weeks, some Wall Street financiers have cautioned that the rapid monetary growth of the past few months could warsen inflation. But Mr. Reagan told businessmen this week that he felt that the Federal Reserve chairman. Paul A. Voleker, was "fully aware of the dangers of reigniting infla-tion and he intends to take a middle conrse" that would allow recovery without higher inflation, according to one of the men present. Robert Thompson of the Chamber

of Commerce. The new Producer Price Index. as the wholesale figures are formally known, shows that fears of renewed inflation are "excessive and completely unfounded." said the Commerce Department's chief economist, Robert Ortner. "We certainly have a good period of time ahead of us before we need to

worry about renewed inflation." The drop in producer prices in January left the prices only 2.1 per-cent higher than they were a year earlier. During 1982 they rose by 3.5 percent, the lowest annual increase since 1971, when wage and price controls were in effect for part of the year.
Since Mr. Reagan took office.

there bas been a dramatic slow-down in inflation. The deep recession has been a major factor holding down price increases, together with declining dollar prices for oil. as well as abundant harvests.

Energy costs fell by 4.2 percent last month, following a 0.9-percent drop in December. These prices

Fed Reports M-2 Rose \$48 Billion

Compiled by Our Staff From Dispatches NEW YORK — The narrowest measure of the U.S. money supply, M-1, rose a seasonally adjusted \$5.9 billion in the week ended Feb.

the Federal Reserve reported Friday. The Fed said the broader measure, M-2, rose \$48.1 billion in

January.

The Fed said the latest figures reflected benchmark revisions. Mosi forecasts had called for an M-1 increase of around \$1.5 billion and a rise in M-2 of \$45 billing.

In addition, the Fed annuaced that it had redefined M-2 and the still broader gauge, M-3, M-2 was redefined to include tax-exempt money market funds, which had been in M-3. Also, individual retirement accounts, called IRA and Keogh plans, were removed from

The Fed said the cumulative effect of the changes in the defini-tions and the benchmark revisions made little difference in the 1982 growth rates of the measures.

month on average in the six months up to November. One rea-son for the energy price rises last year was that natural gas prices soared. Last month, however, these prices declined by 2.7 percent, helped by mild weather, analysis said. Home beating oil costs fell 9.7 percent in January and gasoline prices dropped 3.3 percent, the report said.

Food prices edged down 0.2 per-cent in January, the Labor Depart-ment said. These prices have moved little in most recent months, and are now only 0.7 percent higher than they were a year ago.

Further good news on inflation may lie ahead, analysts said Friday. The administration has predicted that consumer prices will rise by 5 percent this year, compar-ing the final quarter of 1983 to the same three months last year, after a 4.4-percent rise on the same mea-sure last year. But Allen Sinai of Oata Resources said the producer price report "suggests 1983 is going to be a year of surprisingly low inflation, just as was 1982."

He pointed out that much of the dampening effect on prices and wages from recession is felt after had risen by about 2 percent a the recovery has begun.

BUSINESS BRIEFS Sale of Ford Steel Subsidiary To Japanese Expected Soon DEARBORN, Michigan (Reuters) - Ford Motor hopes to complete he sale of its Rouge Steel subsidiary here to a Japanese consortium led 4.075 1.200 1.210 1.420 2.740 7.850 7.850 1.030 3.940 4.950 3.16 relations, said Friday.

by Nippon Kokan by next month, Peter Pestillo, vice president of labor Rouge Steel is the eighth-largest steelmaker in the United States and Nippon Kokan is the second largest steel producer in Japan. Mr. Pestillo said Ford will sell a 75-percent interest in Rouge to the consortium and Ford will remain a significant customer. Ford has said the plant has been

producing at about 50 percent to 60 percent of capacity. Ford buys 30 percent of the current output. Mr. Pestilio said a price for the subsidiary has not yet been determined, and talks on the subject will begin this mooth. He also said a revised wage contract with the plant's 4,000 workers, represented by the

United Auto Workers union, will play a significant role in the automak-

er's ability to complete the sale. **GM-Toyota Pact Expected Monday**

DETROIT (NYT) - The loog-awaited announcement of a General Motors-Toyota Motor agreement for joint production of a subcompact car in the United States is expected on Monday, according to industry

GM declined Thursday to comment on a report that its directors had approved a final plan. GM previously announced plans to import even smaller models from two affiliates, Isuzu Motors and Suzuki Motor. The model will be based on Toyota's froot-wheel-drive replacement for its Corolla model and will be introduced late in 1984, the sources said.

In all, the arrangements with the Japanese companies will give GM the capacity to sell more than 500,000 freshly designed small cars by the mid-1980s, giving it an advantage that clearly has its domestic rivals worned. Chrysler and Ford have hinted that they may raise antitrust objections to

U.K. Inflation Rate a 13-Year Low LONDON (Combined Dispatches) - Britain's annual inflation rate

dropped to a 13-year low of 4.9 percent in January, down from 5.4 percent in December, the government said Friday.

The rate has been more than halved since January 1982, when it was 12 percent, and it has declined for eight consecutive months. Inflation was last at this level in early 1970, and touched a peak of almost 27 percent in 1975. The retail price index in January rose 0.1 percent to 325.9, base 1974, after falling 0.2 percent to 325.5 in December, the government said.

Many foods fell in price, but were offset by higher utility and fuel prices set by nationalized industries.

Libya Said to Seek OPEC Meeting

AMUAY, Venezuela (Reuters) — Libya has proposed that members of the Organization of Petroleum Exporting Countries should meet to fol-low up their conference which ended in disarray in Geneva on Jan. 24, Gustavo Galindo, oil minister of Ecuador, said Friday.

Mr. Galindo said he had received a telex message from Libya, addressed to all OPEC members and dated Tuesday, asking his opinion on holding a new meeting. He said the request obviously sprang from mounting speculation in the world oil market. OPEC members have come under intense pressure from their customers to cut their oil prices since the Geneva conference, which agreed to maintain the OPEC reference price of \$34 a barrel but failed to set individual quotes to limit

U.K. Port Shares Oversubscribed

LONDON (Reuters) - The government's £22-million (\$34-million) of fer of 49 percent of Associated British Ports Holdings has been substantially oversubscribed, Henry Schroder Wagg, joint underwriter to the

The underwriters, in announcing the basis of allocation, said a considerable number of suspected multiple applications for the 19.6 million shares on offer were rejected. Applications for 100,000 shares and above will receive 2.8 percent of the amount applied for, subject to a maximum of 125,000 shares.

Company Notes

Martin Marietta said Friday it expects to show a small loss for the first quarter, but said it believes earnings per share for 1983 will show an improvement over 1982.

International Harvester will report a first quarter loss of less than \$150 million next week, but a company spokeswoman would oot specify how much of that reflects improved operations and how much reflects its recent debt-for-equity swap and an accounting change.

U.S. Fight Over Pay TV

Channel partnership, James Hey-worth, HBO's president, said that Some analysts also believe the the combination "is a further step Nova could be a drag oo earnings

Mr. Heyworth was referring to a previous effort by four studios to form a new pay movie network with exclusive rights to its participants' films. That combination was ruled illegal on antitrust grounds. However, some analysts have said that because the new partnership does not insist on exclusivity, and because the current mood in Wash-

the new alliances take shape and partners products — HBO offer-

ington favors deregulation, it may

John Reidy, an analyst with split between the two cable services Drexel Burnham Lambert Inc. that may actually increase the audissid: "HBO will end up paying ence for both more for external product than before."

SPORTS

Calling It Quits: For Some, It's 'Burnout' Time

In the NFL. 8 Goodbyes

The Associated Frest
NEW YORK — Dick Venneil was burned out. Ray Perkins was homesick. Walt Michaels needed a vacation. Chuck Knox simply needed a vacation from Buffalo. The others? They suffered from that familiar coaching mulady. not enough victories.

Michaels announced Wednesday that he was rething as coach of the New York less, because, he said he hadn't had a vacation in 32 years. He became the eighth National Football League coach to leave his team since the end of the 1982 season - voluntarily or

That is not a record - there: were 10 coaching changes be-tween the 1977 and 1978 seasons. But this year's turnover, coming after a 57-day strike and a nine game regular season, seems to emphasize that life at the top of the coaching world isn't that rosy. The roster of departed coaches

• Perkins, who announced Dec. 15 that he would resign from the New York Grants coach to take Bear Bryant's job as head coach at Alabama, his alma mater. Perkins, who said he couldn't refuse an offer to return home, also was reported to have been disillusioned with professional football by the strike.

 Vermeil, who quit the Phila-delphia Eagles two years after taking them to the Super Bowl because, he said, he was "emo-tionally burned out." He took a job as a sports analyst for CBS.

· Knox, who resigned with a year left on a six-year contract with the Buffalo Bills after continning differences with the club's ment. One day later, he signed with the Scattle Scahawks.

· Mike McCormack, a much traveled survivor of the coaching wars, who vacated the Scahawks joh to move up to general mana-

 Mary Levy, fired by the Kansas City Chiefs after the team improved its record each of his first four years before stumbling in the strike-shortened 1982 season. One reason given by the Chiefs: Levy's offense was too dull, failing to attract enough fans to Arrowhead Stadium.

A recent departure: Walt Michaels, New York Jets.

· Leeman Bennett, fired by Parcells with the Giants, Marion the Atlanta Falcons, who be-lieved a 5-4 record and a spot in Campbell with the Eagles, Kay Stephenson with the Bills and Joe the expanded 16-team playoffs Walton with the Jets, all moved wasn't good enough.

• And Ray Malavasi, who up from assistant jobs with their teams. John Mackovic in Kansas City and Dan Henning in Atlan-

coached the Los Angeles Rams to records of 5-11 and 2-7 the past two years after making the Soper Bowl in 1980. Bill Walsh, who gnided the San Francisco 49ers to the Super

Bowl championship a year ago, considered quitting after a 3-6 record this season, staying on only as the team's general mana-ger. Walsh cited the emotional strain and drug problems among his players, but decided to stay on when he couldn't find another coach with whom he was satis-

So enter the new coaches: Bill

Medical World Is Taking a Look At the Stress Factor in Athletics

EAST LANSING, Michigan -"Burnout," It's a word that appears more and more in sports reports, as coaches and players say they are quitting because they can no longer deal with the pressures of the games that have made them rich and famous.

It's also a problem that puzzles psychologists and physicians who specialize in sports medicine.

"We don't know very much, physiologically," said Larry Armstrong a doctoral fellow at Ball State University's Human Performance Laboratory. "It's probably a combination of mental and physical but we know more about the mental aspects. How you treat it depends on how soon you want to bring them back. It's best to rest or find diversions."

"It's not the stress - it's the meaninglessness of the suress, said Bill Beausay, a Toledo, Ohio, psychologist and executive director of the Academy for the Psychologist. chology of Sports. "What Björn Borg says about 'not wanting to pay the price' just isn't true. No-body ever gets sick of making a

What they do get sick of is esting put behind, being told hat you have to qualify at Wimbledon. When little unpleasant things begin to creep in, that's what you don't like."

Borg, a five-time winner of the men's singles championship at Wimbledon, announced last month that he was retiring from commetitive terms at the age of

"I cannot give 100 percent," said Borg, who began playing as a professional when he was 16. Tennis has to be fun if you are to get to the top, and I don't feel that way any more."

ta, moved up from assistant coaching jobs in Dallas and Borg's announcement closely followed the decision by Dick Vermeil, who took the Philadel-Washington, respectively.
Plus Knox in Seattle and a vaphia Eagles to the Super Bowl two years ago, to retire as coach of the National Football League Three of the recently departed coaches - Knox, Malavasi and club at the age of 46. "I'm burned out," Vermeil Levy --- were members of that 10-

member class of 1978. Of those said. "I'm physically and mental-.10, only two remain in their jobs ly drained. I just have to get out - Sam Runighano in Cleveland for a while."

Glen Sonmor, coach of the Minnesota North Stars of the Na-As Lamar Hunt, owner of the Chiefs, said in announcing Levy's tional Hockey League, also cited burnout when he announced his demise: "There are more coaches retirement last month. Beausay

said more athletes and coaches soon may add their names to the

You watch, in the next year, a lot of other tennis players are going to say the same thing Borg has said," he said. "Whenever a person gets in that state - hurnout - listen very carefully to what they are saying to you. In Borg's case, tennis hasn't changed in 100 years. What he's saying is that Björn Borg isn't fun any-

According to Ronald L. Smith, a professor and director of clinical psychology training at the University of Washington, burnout can be linked to stress or lack

"In Vermeil's case, if he had developed some other stress management skills — learned to get out from under the job a bit — he might have avoided burning out," Smith said. "It becomes a deadly

Borg's case is very different. He decided the rewards were not worth the cost. Stress was not so

much a factor with Borg."
World-class tennis players and big-league coaches aren't the only ones facing burnout. Doug McKeag a physician for Michi-gan State University varsity teams, also has worked with athletes through the university's Youth Sports Institute.

Frequently, young athletes are sick of their sport by the time they reach high school and drop out because they've never had time for their own self-induced activities, McKeag said.

Burned-out coaches also suffer from the "overuse syndrome," the doctor added.

This is not a psychological disorder. These people are not crazy," McKeag said. "I don't know them, hat my guess is they may feel like they were trapped in their situations — in a system."

The coaches who last the longest are those like Bud Grant of the NFL's Minnesota Vikings whose fondness for hunting and fishing is widely publicized — and Penn State's Joe Paterno, who also has developed interests outside football.

When you've got a Bud Grant or a Joe Paterno you've got a nugget and you'd better hold on to him," McKeag said. "That's what we need more of in sports."

Stenmark Wins Slalom in France; Phil Mahre Regains Overall Lead

MARKSTEIN, France - ingemar Stenmark slashed through ice and powdery snow Friday to win by a half-second his third World Cup slaiom ski race of the

The 26-year-old Swedish slalon king, who reigned as World Cup champion from 1976 to 1978, combined two excellent runs through a total of 135 gates to win in a time of 1 minute, 44.54 seconds.

Paolo de Chiesa of Italy was second in 1:45.04, with Phil Mahre of the United States, the defending World Cup champion, third in 1:45.23.

The race replaced a statom event that had been canceled in Wengen, Switzerland, on Jan. 15 because of a lack of snow. Mahre's performance returned

him to first place in the overall World Cup standings. He had fallen to second place behind Switzerland's Peter Lüscher after a supergiant slalom race Wednesday in Garmisch-Partenkirchen,

was third in the other with 51.62, The Swedish star, who won the World Cup slalom title for seven est time in the 69-gate second heat consecutive years before Mahre at 51.59 seconds. Fjällberg finished wrested it away in 1982, climbed back on top of this season's slalom rankings after Friday's race.

"I thought the course was well prepared," said Stemmark, who previously won slatoms this season at Kitzbühel, Austria, and Courmayeur, Italy.

Mahre won the combined event Friday, a paper race combining the slalom and a downhill race held in Kitzbühel on Jan, 21, which also replaced a canceled Wengen race.

The 25-year-old American picked up 25 points for his combined victory and 15 points in the slalom to total 186 points.

"It was important for me to win the combined," said Mahre, the 1981 and 1982 World Cup champion. "I didn't ski well in the first heat because the course was flat. But I like flat courses and I proved I could handle it in the second heat." The course had a vertical Stemmark posted 52.92 for the drop of 155 meters.

Mahre placed sixth in the 66-gate first heat and tied with Swe-den's Bengt Fjällberg for the fasteighth in the race.

It was the first World Cup event to be held in the Vosges Mountains. A giant slalom is scheduled

at Markstein on Saturday.

She Sings the Praises of Hockey

For Anne Murray, It Was Part of Growing Up

By George Vecsey
New York Tunes Service

UNIONDALE, New York -Anne Murray can remember the Saturday nights by the television set, her five brothers and her father debating the merits of her country's two major league hockey teams, the Maple Leafs and the

"That was before there were 84 teams," she says with the busky laugh that is the trademark of the most popular singer ever to hail

from Springhill, Nova Scotia.

Anne Murray is a bockey fan and a Canadian, two states of being that are almost, if not auto-matically, inseparable. Along with all but five of this year's National Hockey League all-star players, Murray was born north of the bor-

In Florida, Canadians are known as Snowbirds, because they arrive soon after the first flurries up north, in cars bearing license plates from Ontario and Quebec and the Maritime Provinces. The nickname comes from Anne Murray's hit record, which helped turn her from a Canadian country sing-er into an international middle-of-

Her country produces Gordon Lightfoots and McGarrigle Sisters as generously as it produces Bryan Trottiers and Barry Becks, Anne Murray's work could allow her to become a lady of the canyons of made Tarkanian the player the certs, like the one at last week's all-

SPORTS BRIEFS

Tanner Defeats Ailing McEnroe

RICHMOND, Virginia (UPI) - An ailing John McEnroe dropped the first four games of the final set. Thursday night and was eliminated by Roscoe Tanner, 6-3, 5-7, 6-2, in the second round of the Richmond ennis Classic.

McEnroe has had tendinitis in his left shoulder and had already pulled out of doubles competition because of the injury. In Thursday's match, he vented his irritation on the umpire, linesmen and himself. McEuroe is the third seeded player to be eliminated. In the first round, third-seeded Wojtek Fibak and fifth-seeded Johan Krick were upset. The

over Lloyd Bourne. Connors Beats Mayotte in Toronto

TORONTO (AP) - Jimmy Conners crushed Tim Mayotte, 6-0, 6-0, and José Higueras made some spectacular passing shots to beat Vitas Gerulaitis, 6-3, 6-4, Thursday night in the Termis Challenge. "I enjoy doing that once in a while," Connors said of his easy victory

over Mayotte. "He got shaky and not confident after I got going early."
With their victories, Comors and Higueras improved their records to 2-0
in the round-robin portion of the tournament and qualified for Saturday's semifinals. Mayotte and Gerulaitis fell to 0-2.

Earlier, Peter McNamara, who had already chinched a semifinal berth, was beaten by Brian Gottfried, 6-2, 6-2. Also in the eight-man field are Gene Mayer and Mats Wilander.

UEFA Fines Barcelona \$30,000

ZURICH (Combined Dispatches) — The Spanish club Barcelona was fined 60,000 Swiss francs (\$30,000) Friday by UEFA, the European ruling body of seccer, after incidents during the second leg of its European Super Cup final with England's Aston Villa last month.

Four Barcelona players and an Aston Villa player were given suspen-sions ranging from one to five games for their behavior in the match at m, which Aston Villa won, 3-0, for a 3-1 aggregate victory. The UEFA disciplinary commission warned the hard-tackling Barcelona squad that stronger action would be taken if there were other similar

cases in future matches. Barcelona was fined 35,000 Swiss francs last July after rowdy scenes during their European Cup Winners' Cup final with Standard Liege in

Aoki Shares Hawaiian Golf Lead

HONOLULU (AP) - Isao Aoki, Japan's top goiler, birdied five holes in a row Thursday on the way to a 6-under-par 66 and a share of the first round lead in the Hawaiian Open. He was tied with Dan Pohl, who had a

hole-in-one on the 17th, and Vance Heafner.

The defending champion, Wayne Levi, did not make a bogey and recorded a 67. Also at that figure were Leonard Thompson, Pat Lindsey and a local pro. David Ishii. Arnold Palmer had a disappointing 77 on the 6,881-yard Waialae Country Club course. Gil Morgan, winner of the first two events on the

Professional Golfers' Association sour this season, had a 73.

Tarkanian Makes the Desert Boom His Basketball Rebels Are Las Vegas's Best Bet

cancy with the Rame.

and Monte Clark in Detroit.

By Richard Hoffer one more house with an unbeatable edge. Add the Las Vegas Couvention Center, a low-slung warehouse of busted dreams, an emporium unadvertised by neen but nevertheless notorious for its impossible No. 2 seed, Guillermo Vilas, advanced Thursday with a 6-3, 6-2 victory house odds.

It is the home of the University of Nevada-Las Vegas basketball team, a room nobody leaves a winner. No jackpots here. Not ever. Not, anyway, while the Run-nin' Rebeis, college basketball's last major undefeated team, have

These Rebels are college basketball's best bet right now on any given night. Although the University of Nevada-Las Vegas wins everywhere lately, it wins here with an ease and smeness that would ordinarily inspire a federal investigation. Uh, what's that up your sleeve there, UNLY?

Long arms is all. Some of them belong to 6-foot-9 Sidney Green. some to 6-6 Larry Anderson. Others. shorter, to Danny Tarkanian. In other words, nothing crooked about this game but elbows.

The Rebels have enjoyed a little Lady Luck on the way to their high ranking (No. 2 by The Associated Press, No. 3 by United Press International) - nobody disputes that. And their schedule hasn't been killer quality. Mostly, though, they have simply outplayed everybody.

This is somewhat disturbing to

North Carolina. This is not home, come, though, Tarkanian the coach mures south mainly to play consider all to much of a tradition. after all, to much of a tradition: 25year-old UNLV has more cactus than ivy. Still, this little commuter college (it has about 4,000 full-time students, average age 24) has somehow cut into the big time. And hopes to out further with NCAA

tournament success. - If UNLV has anything approaching an unfair advantage in achieving this goal, it is Coach Jer-ry Tarkanian, 52, who is most notasheer genius. hile courtside for chewing on wet

The sad-eyed Tarkanian has a major-college coaching record of 343-83. He's the winningest coach in the game - forget Bobby Knight and Digger Phelps.

None of this should qualify as

big news. Tarkanian's teams have always been good, sometimes too good, according to the NCAA. Five of his teams at UNLY have gode to post-season tournaments, one advancing to the NCAA semifinals in 1977.

This one, though, Tarkanian may like best. This one, of course, is still undefeated. Tarkamian says he's always at-tracted talent, whether at Riverside City College, Pasadena City Col-lege, Long Beach State or UNIV.

But that's not all. Aside from attracting the attention of the NCAA, which dogged him for six years, Tarkanian's little shelter for unloved basketball players wretched refuse according to the royalty - attracted problems, followed by troubles. Most of the head cases that drift-

ed into his program — "Tve had my share of goofy ones" — got straightened out and eventually helped both Tarkanian and themselves. Others, lured to Tarkanian by his outlaw image and wide-open style of play, drifted in and then out, helping cobody. A case in point would be last year's team, which Tarkanian now

admits he didn't like very much. Even for UNLV, where instability is etched above the coat of arms, last year's group was unusually transient. Two transferred out; another merely disappeared. Two other stars used up their eligibility, one before the season was out, That team, possibly Tarkanian's

ing 20-10. This year's 21-0 bunch i not quite as gifted, yet Tarkanian enjoys them much more.
Sidney Green, UNLV's best player and a probable first-round pick in the NBA draft, sees the difference, too. "We definitely had more talent last year," he says. "But a couple of guys just didn't want to play team ball. They didn't

ART BUCHWALD Supply-Side Romance

"I would marry right oow, but if we doo't get married soon we where would we live?"

"What's wrong with here?"

"I wouldn't many my mile to live President Reagan's advisers expect

in this squalor."

haven't noticed the squalor. Once we get married the romance will go out of the squalor, and you'll want to move to a place I can't afford."

"You're just using the recession as an excuse for not marrying me." "How can you say such a thing? I told you when I met you I was a romantic supply-sider. How did I know that interest rates would go through the ceiling, the economy would stagnate, and ocemploymeot would be at an all-time high? How can a man cootemplate wedlock when nothing is trickling down from the top?"

"Men are doing it every day."
"Yes, hut what kind of men? The hig spenders who don't care about a balanced hudget, or the viahility of the Social Security system or the tight money policies that have driven down inflation to 5 percent. Are you willing to go to the altar at a time when steel production is at the lowest it's been since the depression?"

"I'm starting to think that even if we were in a boom period you wouldn't want to get married."

You're wrong. I would marry you tomorrow if the gross national product went up hy only 10 percent, pnemployment was down to 6. percent and automobile sales increased to their 1979 levels. Mar-

The Associated Press SARATOGA, Wyoming — The historical society here borrowed a piano and found space in the high school lunchroom for the first known performance Thursday of a Dehi the boro Weste

WASHINGTON — Recessions affect everyone, even people who are in love.

They also give some people who are in love reasons not to get mariant in love reasons not to get mariant. do with us. We love each other and

"I wouldn't want my wife to live this squalor."

"I've been living here for eight 1983 or 84 or 85. We could even have a mild recovery at the end of "Yes, but it's one thing to live this year. The July tax cut might here because you're so in love you spur the consumer to go out and spur the consumer to go out and spend money again. With luck we could get married in any one of the next fiscal years." "And if all these wonderful

"Then marriage is out of the question until Reagan gets his house io order. Honey, why are you getting mad? Did I know when we started living together what the MX missile system would cost?"
"I don't care what an MX missile costs. I want a home and children and a husband who will take care of me. I'll continue my job if

you're worried about the reces-

"Who said I was worried about the recession? I'm worried that can't give you everything you de serve as a wife. I want the best for you and my children. When we live together no ooe cares about our lifestyle. Society accepts us oow for what we are - two people living happily in sin. But once we take the marriage vows we'll be judged by much more materialistic standards. Do you think your parents would let you live like this if you

were married?" "I think you're full of it. If you don't want to get married I'm going to pack and move out."

You can't do that. You have to stay the course. Everyone has to suffer some pain if we ever hope to right the mistakes of the past 40 years. Look, I'll tell you what I'll do. If Reagan can get the budget down by a lousy \$80 billion without eodangering our national security, or increasing personal income taxes. I'll go down to city hall and we'll take out a license the oext day.

Martin Scorsese: On Keen Street

By Michiko Kakutani

New York Times Service
NEW YORK — When Martin Scorsese
first read the series for The York first read the script for "The King of L Inst read the script for "The King of Comedy" in 1974, he dismissed it as a one-gag film. The story of an ambitious young comic who kidnaps a famous talk-show host in order to get himself oo television didn't interest him at all. Years passed, and Scorsese directed, with much acclaim, such movies as "Alice Doesn't Live Here Anymore," "Taxi Driver," "New York," and "Raging Bull."

New York" and "Raging Bull." When he read the script of "King of Comedy" again in 1979, he says he finally understood what it was all about. Indeed the film — which opens in New York Friday - had taken on an intensely personal resocance for him.

In "The King of Comedy" Robert De Niro plays a novice comedian named Rupert Pupkin, who will do anything, anything, to get Jerry Langford, a television personality played by Jerry Lewis, to invite him to perform on his show. Pupkin wheedles, he whines, he makes a complete pest of himself, and when that doesn't work, he

resorts to kidnapping and ransom.
"I can identify with Pupkin," Scorsese says. "It's the same way I made my first pictures with oo money and with the constant rejection — going back and going back and going back until finally, somehow, you get a lucky break. Actually luck doesn't have that much to do with it; it's just this constant battering away at this mocolith. Pupkin goes about it the wrong way, but be does have drive. I remember I'd go anyplace, do anything. I'd try to get into screenings, get into any kind of social into screenings, get into any kind of social situation to try to talk up projects. It's important who you meet — after all, if you meet 40 or 50 people, the one person who will produce your first film might just be there.

It took almost a decade of struggling — after receiving a master's degree from New York University's film department in 1968. he edited documentaries and made commercials — hut Scorsese's hustling paid off. Made in 27 days for \$650,000, his third feature, "Mean Streets," earned critical ac-claim and helped establish him as one of the country's oustanding directors.

In retrospect, however, he says that that success incurred heavy personal costs three marriages fell apart, and his friendships, too, suffered from the pressures of his work. Intense, driven and passionate in his love of film, Scorsese, at 40, speaks in rapid staccato sentences - sentences that pile up on each other as though he cannot talk fast enough to express all his thoughts.

Scorsese: "Constant battering."

the spirit, you can kill relationships, you can kill everything else around you in your life. It does affect personal relationships, and the final line for me at the time was that if I had to make a choice between work and a relationship, the personal relanionship would go by the wayside. I don't have regrets — whatever's happened over the years, I think happened for the better, but maybe the reason I made this picture is because I hope I wouldn't think the same

One of the things that Scorsese has cap-tured best in his films is a sense of American life - not so much life lived in the mainstream, hut life lived on the margins. where the promises of the Dream seem both alluring and elusive. Charlie, the young would-be hood in "Mean Streets," works for his gangster uncle and aspires to rise in the world of crime. Alice, liberated from the past by her hushand's death, sets off for Monterey, hoping to make a new life as a singer. And Jake LaMotta in "Raging Bull," and the Jimmy Doyle and Francine Evans in "New York, New York" also harbor dreams of success.

Through these characters and a kind of documentary approach, Scorsese has created perfectly observed worlds; in "Mean Streets," a portrait of life on the Lower East Side, as it is played out in the local

while his movies often seem to be making certain social observations — "King of Comedy," for instance, may be viewed as a kind of comment on America's obwith celebrity — Scorsese says that those aspects do not really interest him. "Taxi Driver," he explains, "is much more Dos-toyevskian than political."

The son of a clothes presser, he grew up

in New York's Little Italy, where asthma and a frail physique prevented him from taking part in the macho, street smart life around him. He spent most of his free time going to the movies, which made him want, more than anything, "to be part of that incredible world of the creation of films. Films are like having a person around. And to have films be so much a part of your life that you can't live without them is kind of nice, and I thought that's what I wanted to achieve for other people."

In "Mean Streets," Scorsese created a

dark, vital portrait of street life on the Lower East Side — the very life he once felt so excluded from. Although the picture chronicled the attempts of young men trying to make it as small-time gangsters, it was more concerned, at heart, with explor-ing the hero's struggles to reconcile the moral dictates of his conscience with the hrutal code of life around him. It raised the question, says Scorsese, of "how does one practice Christian ethics and morals when you're in a world of that sort - and can you be a hoodlum and also be a saint" In Scorsese's first feature "Who's That

Knocking at My Door?" a young man at-tempted to reconcile sexual desire with his Catholic sense of guilt. In "Taxi Driver," the demented hero's asceticism and isolation turned him into a kind of saint-runamok; his determination to purge New York of its pimps and prosututes, pos-sessed all the fervor and intensity of the Old Testament God. And in "Raging Bull," the story of the boxer Jake LaMotta's rise and fall took on mythic qualities

of suffering and redemption.

Not surprisingly, "Raging Bull" also reflected certain spiritual struggles Scorsese was experiencing at the time. It was 1978, and the director had just finished making New York, New York" - a picture, he says now, that marked the end of his love affair with film. Employing painted back-drops and big musical numbers, the movie had been intended as a kind of homage to the Hollywood films of the '40s that Scorsese loved so much, but in shooting the picture, he found that it was "nightmarish" to try to recreate what no longer existed: the "factory" provided by the old studio system was gone, and the visual style of the old movies proved difficult to

messy his life had become and he thought about how the success he had wanted so much had turned out to be so hollow. Somehow, in the midst of this, he says he had a kind of revelation about how to make "Raging Bull." In "New York, New York," he had already touched upon the consequences of success — the marriage between the Liza Minnelli and Robert De Niro characters falters when her career takes off and his does not — and he real-ized that a similar parable was provided by the story of how Jake LaMotta won a boxing championship at the expense of his family and self-esteem.

The movie not only transformed

Scorsese's personal dilemmas into a critically acclaimed work of art, but it also represented a kind of stylistic breakthrough. In the past, his films had possessed a nervous, eclectic style. They were sessed a newtos, execute style. They were filled with references to previous films— the Wizard of Oz homage in "Alice," the "Star is Born" allusions in "New York, New York"—and his hectic, expressionis tic carners work often jarred with his tendency to work with actors in a naturalistic. almost documentary, fashion. Largely in reaction to the high stylization of "New York, New York," he had tried to simplify his technique in "Raging Bull" — the movie was even shot in gritty black and white — and in doing so had managed to in-tegrate all these disparate elements into "a complete cohesive style." In "King of Comedy," the director's camera is even more static; it represents, he explains, an effort to simplify things further.

In a sense, Scorsese has tried to do the

same thing with his life. At the end of 1979, he left Los Angeles and moved back to New York, and now lives quietly in Lower Manhattan. The apartment has the same empty, almost antiseptic look of Jerry Langford's apartment in "The King of Comedy," and it is filled with the sort of provisional furniture — metal bookcases and cheap metal and rattan chairs someone acquires in the wake of a divorce. At the moment, he is making plans to shoot his next picture based on Nikos Ka-zantzakis's "The Last Temptation of

"it's calmed down a lot," he says. "It may be kind of boring and lonely at times, but it's better for the work and it's better for you as a person. At 40, you do start to think about things differently. I must say, I can understand why people eventually stop making pictures — because to make films in such an impassioned way, you really have to believe in it, you've really got to want to tell that story, and after a while, you may find out that life itself is more important than the filmmaking process. Maybe part of the answer for what the hell we're doing here has to be in the process of living itself, rather than in the work." He

Peter Martins Plans To Give Up Dancing

Peter Martins, 36-year-old principal dancer of the New York City Ballet, said that he would give up performing within a year. Martins said the demands of choreograph ing new ballets and of belping to run the company — he has been tapped as eventual successor to the artistic director, George Balanchine were too great to allow him to continue dancing. His other duries include teaching at the company's school, choreographing, restaging works, administering the IIIdancer company and counseling the younger dancers.

The wreckage of a World War II fighter plane pulled from the Gulf of Fos was tentatively identified as a U.S. Air Force P-38, not the Free French reconnaissance version in which the aviator and author An-toine de Saint-Exupéry ("Night Flight," "Wind, Sand and Stars") disappeared. The wreckage found Tuesday by a fisherman northwest of Marseilles carried neither American nor French insignia but had identification plates. Saint-Ex-upéry, disappeared July 31, 1944, at age 44, after taking off from Corsica for a photographic mission over the Alpine region near Greno-ble. The French aviation magazine Icare recently speculated that he was shot down by a German fighter and crashed in the Mediterranean about 90 miles west of where the fisherman hauled up the central fuselage of the twin-tail P-
